TUESDAYS AT CASTLE COVE

Every Tuesday from 2 Jul 10:30 to 12:30

Interesting presentations on various topics each Tuesday.

Bookings: <https://sydneyu3a.org> or Barbara Boston
barbboston2013@gmail.com (preferred) 9417 2967

Music Poetry

1. Lyrics quite contrary

2 Jul

A look at the often unlikely (and often unpleasant) origins and histories behind some of the best known traditional nursery rhymes and children's songs.

Presenter: Graham Spindler

Music

2. Music can change the world

9 Jul

Despite Beethoven's assertion, it probably can't, but music has often played a part in world events – sometimes for the better. A look at the stories behind some influential music.

Presenter: Graham Spindler

Photography Art

3. Visual literacy in the age of the digital screen

16 Jul

The way we experience the moving image from the cinema to black and white tv to Netflix on a smartphone. Why personal photography has never been so important.

Presenter: Martin Wetherill

History

4. Isfahan: Pearl of Islam

23 Jul

Under the Safavids (1500-1722) Persia entered a golden age with its capital, Isfahan, still one of the most dazzling and perfectly preserved cities of the Islamic world.

Presenter: John Tidmarsh

History

5. When Britain bullied China

30 Jul

In early 19th century, Barbarians forced their way into the peaceful Celestial Empire. It was the beginning of a century of humiliation for China. How and why did this happen?

Presenter: Gordon Mar

History Famous People

6. Sir Douglas Mawson

6 Aug

Includes a new 50 minute DVD on Mawson; a distinguished Australian geologist and Antarctic explorer and his incredible survival when things went badly wrong in the frozen southern continent.

Presenter: Garry Lowder

History

7. Northbridge

13 Aug

The story of the suspension bridge and the development of the area.

Presenter: Ron Besdansky

Medical Matters History

8. Top medical advances in history and recent breakthroughs

20 Aug

There is little doubt that identifying diseases and their treatment is as old as humanity itself. We discuss the treatment advances old and new.

Presenter: Punchi Dassanayake

Astronomy

9. From a star to the New Yorker

27 Aug

As the morning/evening star, Venus is a conspicuous planet. Myths emerged to explain the constellations with a female identity/goddess to creation stories, fertility and victory.

Presenter: Robijn Alexandra

History Ancient

10. Ships of the Gods of ancient Egypt

3 Sep

The Nile River was the source of life of the Ancient Egyptians. Boats explained the concept of a sky boat that served the souls of the deceased in the afterlife.

Presenter: Robijn Alexandra

Travel

11. Most scenic railway journeys in the world

10 Sep

As train travel is getting more popular with the tourists, we look at the best scenic railway journeys in all the five continents.

Presenter: Punchi Dassanayake

History

12. Tramways of the north shore

17 Sep

The development and construction of tramways on the North Shore.

Presenter: Ron Besdansky

History

13. Australia's origins: how we got here

24 Sep

How did Australia's origins link with the larger history of movements of human beings across the globe.

Presenter: Emeritus Prof John Gascoigne

Religion Architecture

14. The world's greatest churches

1, 8, 15, 29 Oct, 5 Nov

DVD series about churches from early caves to the magnificent gothic churches of Europe. The buildings instruct, edify, and inspire their communities, using iconography, symbolism, and architecture as ultimate expressions of faith.

Presenter: Barbara Boston

History

15. The world of Turks and the Ottoman Empire

22 Oct

The Turkic nomads emerged from the Asian steppes and replaced the Arabs in controlling the Islamic world.

Presenter: Himanshu Jhala

History China

16. Chinese coolies in France in WWI

12 Nov

A little-known chapter in the history of WWI when China sent thousands of coolies to work, and some to die, on the battlefields of Europe. A story untold, until today.

Presenter: Gordon Mar

Games

MAHJONG WESTERN STYLE

Every Thursday from 4 Jul 10:30 to 12:30

Biology

1. Poisonous stings

1 Jul

A look at some of the more dangerous creatures that are found in and around Australia, including snakes, spiders and water creatures.

Presenter: Ian Thompson

Legal Matters

2. Voluntary assisted dying

8 Jul

How we die is important to us. The Voluntary Assisted Dying Act 2022 (NSW) gives us new options and the Act's creation and operation will be discussed.

Presenter: Nicholas Cowdery AO KC

Medical Matters

3. Stroke – a time-critical emergency

15 Jul

If the treatment is initiated in time, 85% of strokes can be treated effectively. Prompt recognition and action is vital. Get the latest update.

Presenter: Dr Christine Lopacinski

History

4. Weapons of mass destruction

22, 29 Jul

The story of making and dropping of atomic bombs over the cities Hiroshima and Nagasaki, and the subsequent nuclear weapons race.

Presenter: Punchi Dassanayake

Politics Current Affairs

5. What is democracy all about?

5, 12 Aug

With the US elections pending and mini-dictators moving some European countries away from democracy, it is timely to analyze how this political experiment that was born less than 200 years ago, is coping.

Presenter: Peter Nixon

Aviation

6. Flight to resilience – navigating life's challenges

19 Aug

A journey of resilience, drawing from my experience as an air force and Qantas pilot. The power of remaining calm in the face of adversity and the importance of preparation.

Presenter: Richard de Crespigny AM

History

7. Mozart at the movies

26 Aug

Mozart's compositions provide sound tracks for many films. This presentation contains movie scenes, with episodes from Mozart's life and extracts from his letters when he wrote those works.

Presenters: Nora Hinchin

Science

8. Science is in ALL things

2 Sep

What have mauve, Newton, beetle eyes, X-rays, seances got in common? They've all featured on RN's 'The Science Show.' Is there a future for thought-provoking legacy listening?

Presenter: Sharon Carleton

Logic

9. Logic and reasoning: The path to knowledge

9 Sep

Scientists, doctors, magistrates and jurists all share the need to make critical decisions. This presentation will describe how deduction and induction provides the confidence we seek.

Presenter: Ian Bryce

Geography History

10. St Kilda Archipelago

16 Sep

The history of a group of islands off the north west of Scotland. The population lived there for thousands of years as Celts until evacuation in 1930.

Presenter: Winsome Baker

Science

11. Colour

23 Sep

What is colour? How have we analysed it from both scientific and artistic point of view, and how is colour created in nature, and in our attempts to imitate nature.

Presenter: Dr Laurie Wilson

Famous People

12. Greg Mortimer

30 Sep

Greg and Tim McCartney Snape were the first Australians to climb Mt Everest. Greg has had a career as an adventurer and businessman, taking people to the ends of the world.

Presenter: Greg Mortimer OAM

Music

13. Favourite singers

14 Oct

Anne and Nora have been listening to classical music all their lives. They will share their favourite singers with you, and tell you why they think those singers are special.

Presenters: Anne Richardson and Nora Hinchin

Inventions

14. Australian innovation: Beyond Hills hoist, Vegemite, Victa

21 Oct

A surprising range of Australian ideas had changed our lives and spread around the world. Innovation continues today.

Presenter: Debbie Rudder

Famous People

WEDNESDAYS AT MOSMAN SQUARE

Every Wednesday from 7 Aug 10:00 to 12:00

Interesting presentations on various topics each Wednesday.

No booking required

Medical matters

1. Human gut – the ultimate grinding machine

7 Aug

There is no better grinding machine in the world than our gut. The harsh food we eat is pounded, nutrients extracted and the waste expelled. See how this is done.

Presenter: Punchi Dassanayake

Religion

2. 26 Extraordinary years at the ABC

14 Aug

In over 1700 programs on religion for the ABC, Rachael explored everything from the sublime to the ridiculous and from archbishops to aliens. There was never a dull moment.
Presenter: Rachael Kohn

Art

3. Caravaggio and the power of the cinematic image

21 Aug

How a radical painter of the 16th Century changed Italian Baroque Art and how understanding of his images can improve photography.

Presenter: Martin Wetherill

Photography Art

4. Visual literacy in the age of the digital screen

28 Aug

Why personal photography has never been so important. The way we experience the moving image from the cinema to black and white TV to Netflix on a smartphone.

Presenter: Martin Wetherill

Energy

5. Energy resources

4, 11 Sep

Renewables, fossil fuel, nuclear energy, hydro power. How is Australia tackling these issues?

Presenter: Peter Nixon

Geography History

6. Great river systems on our planet

18 Sep

Our rocky planet has many surprises. We look at some of the great rivers and the diverse civilisations they pass through.

Presenter: Punchi Dassanayake

Science Medical Matters

7. Quackery – a brief history of the worst ways to cure everything

25 Sep

The golden age of quacksalvers - a historical look at quackery during the Middle Ages and the toxic treatments that these medical-peddlers offered, including early surgical procedures and leech-therapy.

Presenter: Ian Thompson

History Religion

8. Religion's effects on European society and politics (1)

2 Oct

Pre-Christian European societies emerged from religious cults through to worship of Greek, Roman and Scandinavian deities before Christianity became the religion of the Roman empire.

Presenter: Himanshu Jhala

History Religion

9. Religion's effects on European society and politics (2)

9 Oct

Philosophical and political differences led to turbulent times in Europe. Religious wars tore societies apart resulting in the loss of millions of lives. Europe was now ready for the Enlightenment.

Presenter: Himanshu Jhala

History Religion

10. Religion's effects on European society and politics (3)

16 Oct

Christianity had a profound influence on art, architecture, and music. European trade and colonisation spread Christianity outside Europe. Christians frequently demonstrated intolerance to other faiths and cultures.

Presenter: Himanshu Jhala

History Culture

11. A brief history of gold

23 Oct

Why have humans been besotted, for over 5,000 years, with gold? What is it about the metal that has driven people to go to such extreme ends to acquire it?

Presenter: Garry Lowder

Geology

12. A planet, its people and their rocky relationship

30 Oct

We owe our very existence to special features of our planet and its dynamic behaviour. We take a geological reality check of sea level change, ocean acidification, and renewable energy.

Presenter: Garry Lowder

Science

13. The world in a grain of sand

6 Nov

We look at beach and desert sand and how it has transformed our world, including the hidden social and environmental costs of sand mining, together with why Australia is selling sand to Saudi Arabia.

Presenter: Ian Thompson

History

14. Olympe de Gouges – Humanist, feminist, educationalist, enlightenment thinker

13 Nov

Olympe de Gouges was guillotined for sedition in 1793. Why was she nominated twice to receive a place in The Pantheon and a bust of her placed in the French National Assembly in 2016?

Presenter: Chris Serrano

Ethics

15. Voluntary assisted dying

20 Nov

The legal history of voluntary dying will be discussed, leading to the operation of the new Voluntary Assisted Dying Act 2022 (NSW) that began on 28 November 2023.

Presenter: Nicholas Cowdery AO KC

Science Religion

16. The science of religion

27 Nov

Examining theories and evidence, from evolution and the cognitive sciences, that seek to explain the experience of religious belief as a purely naturalistic phenomenon, originating entirely in the human brain.

Presenter: Kevin Murray

Objects employed for ritual use and religious devotion in services reveal some surprising works of art.

Presenter: Robijn Alexandra

Health

5. Brain health

13 Sep

A wellness expert explores how to maintain brain health. What can be done to prevent a decline of cognitive function?

Presenter: Gayle Nelson

History Famous People

6. Nikola Tesla - Brilliant engineer but tragic eccentric

27 Sep

Discover the life and accomplishments of the engineer who contributed to the design of the modern alternating current (AC) electricity supply system.

Presenter: Emeritus Prof Don Napper

Health

7. Aged care in Australia

11 Oct

What is aged care, how does it work, and how is it changing?

Presenter: Cameron Kirby

Science Environment

8. Why does carbon dioxide cause global warming?

25 Oct

Trace amounts of the greenhouse gas, carbon dioxide, cause climate change, whereas the far more prevalent atmospheric molecules that we breathe, oxygen and nitrogen do not. Why is it so?

Presenter: Emeritus Prof Don Napper

Science Current Affairs

9. Artificial Intelligence - past, present and future

8 Nov

An easy-to-follow introduction to the state of AI in popular culture and the real world, including the arguments about its potential benefits, risks and what the future may hold.

Presenter: Jeff Burgess

OUT THERE

Outdoors Eating out

THIRD FRIDAY LUNCH GROUP

Third Friday of each month from 19 Jul

We meet for lunch at restaurants that serve a variety of cuisines. We go everywhere in Sydney, except the North Shore. We try to book BYO wine venues where there is a small corkage charge, which attendees are required to pay.
